

YOSSEF EHAB MOHAMED

Front-End Developer | React.js & Next.js Specialist

Qalyubia, Egypt • +20 101 394 7727 • yossefhabb@gmail.com • [portfolio-nextjs-zeta-rosy.vercel.app](#)

SUMMARY

Results-driven Front-End Developer **specializing in React.js and Next.js 16, with a strong foundation in TypeScript, JavaScript, Tailwind CSS, and REST API integration. Led the award-winning graduation project “WithU” (Excellent with High Distinction), a full-stack liver-health platform integrating AI-generated insights and real-time patient tracking. Experienced in Agile workflows, responsive design, and delivering production-ready web applications with clean, maintainable code.** Currently expanding my backend development skills by studying C# and ASP.NET Core to build full-stack applications.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3 , C#

Frameworks & Libraries: React.js, Next.js 16, Tailwind CSS, React Query , EF-Core , Dapper , NHibernate

Backend & Databases: Supabase (PostgreSQL), REST APIs, Row Level Security (RLS) , SQL Server ,

Tools & Platforms: Git & GitHub, Vercel, Cloudinary, Figma (Basics), PostHog

Practices: Responsive Design, Performance Optimization, i18n (EN/AR), UI/UX Principles, Clean Code, Agile

Soft Skills: Team Leadership, Communication, Problem Solving, Time Management

WORK EXPERIENCE

Mar 2025 – Present | Remote, Saudi Arabia

Front-End Developer (Quality Leader) | QAED

- Completed advanced front-end training program with real-world project delivery
- Demonstrated expertise in responsive design, modern frameworks (React.js, Next.js 16), and clean code practices
- Collaborated in an Agile team environment with structured code reviews and iterative delivery

EDUCATION

Jan 2021 - **Bachelor of Science in Computer Science** | **Modern Academy for Computer Science**

Jan 2025 | Cairo, Egypt

- Overall Grade: Good
- Graduation Project: Excellent with High Distinction – "WithU" Liver Health Monitoring Platform
- Role: Team Leader – coordinated full-stack development and cross-functional AI/ML team integration

PROJECTS

2025 – Ongoing

Illusion Studios – E-Commerce Platform

- Built a full-featured e-commerce platform for a local clothing brand using Next.js 16 and Supabase (PostgreSQL)
- Designed a normalized database schema with product variants (dynamic sizes/stock), order lifecycle management, and race-condition-safe stock control via row-level locking
- Implemented order workflow with automated order number generation, status tracking (pending → delivered), and admin-controlled cancellation/restoration
- Built admin dashboard with full Row Level Security (RLS) separating public and admin access
- Integrated Cloudinary for image upload/optimization; implemented infinite scrolling and server-state caching with React Query
- Applied i18n support (EN/AR) and fully responsive design across all devices

Tech Stack: Next.js 16, React.js, TypeScript, Tailwind CSS, Supabase, PostgreSQL, Cloudinary, React Query

2024 – 2025

WithU – Liver Health Monitoring Platform

- Led a cross-functional team to build an AI-powered dashboard for uploading medical reports and viewing AI-generated health insights
- Implemented automated follow-up reminders and comparative analysis of test results over time
- Coordinated with AI/ML team for seamless REST API backend integration

Tech Stack: *React.js, TypeScript, Tailwind CSS, REST APIs*

2024

DevEvents – Event Management Platform

- Built dynamic homepage listing upcoming events with real-time REST API integration
- Implemented full CRUD functionality for events using Next.js 16 API routes
- Integrated Cloudinary for image uploads and PostHog for analytics tracking

Tech Stack: *Next.js 16, React.js, Cloudinary, PostHog, Tailwind CSS*

2024

TrendShop – E-Commerce Platform

- Built shopping cart, product filtering, search, wishlist, and user authentication features
- Applied i18n support (EN/AR) and fully responsive design with focus on performance and accessibility

Tech Stack: *React.js, JavaScript, Tailwind CSS, REST APIs*

2023

WorldWide App

- Built search and filter functionality for country data fetched from public REST APIs
- Designed responsive UI with interactive cards and detailed country information pages

Tech Stack: *React.js, JavaScript, REST APIs*

2023

Popcorn Movie App

- Implemented dynamic search and movie detail pages with real-time API integration
- Managed application state and user progress using React Hooks and Context API

Tech Stack: *React.js, JavaScript, Context API*
