qalyubia • +20 101 394 7727 • yosseffehabb@gmail.com • <https://portfolio-nextjs-zeta-rosy.vercel.app/>

front end developer

Results-driven Front-End Developer specializing in React.js and Next.js 16. Led the award-winning graduation project "WithU" (Excellent with High Distinction) – a full-stack liver-health platform integrating AI-generated insights and real-time patient tracking. Passionate about crafting fast, accessible, and pixel-perfect web applications using TypeScript, Tailwind CSS, and modern tooling. Proven team leadership and a track record of delivering production-ready projects.

WORK EXPERIENCE

QAED

Quality Leader Front End Developer

03/2025 – Present

Saudi Arabia

1-month remote program

- Completed advanced front-end training with real-world projects
- Excelled in responsive design, modern frameworks, and clean code practices

EDUCATION

Bachelor of Computer Science

Modern Academy for Computer Science

Cairo • 01/2021 – 01/2025

Overall Grade: Good | Graduation Project: Excellent (High Distinction) Team Leader – WithU Liver Health Platform

PROJECTS

Illusion Studios – E-Commerce Platform (Ongoing)

- Building a full-featured e-commerce platform for a local clothing brand using **Next.js 16** and **Supabase**
- Designed a normalized PostgreSQL schema with product variants (dynamic sizes/stock), order lifecycle management, and race-condition-safe stock control using row-level locking
- Implemented order workflow with automated order number generation, status tracking (pending → delivered), and admin-controlled cancellation/restoration logic
- Built admin dashboard for managing products, categories, and orders with full **Row Level Security (RLS)** policies separating public and admin access
- Integrated **Cloudinary** for image upload and optimization
- Implemented infinite scrolling and server-state management using **React Query** with lazy loading and caching strategies
- Applied **i18n** support (en/ar) and responsive design across all devices

Tech: Next.js 16, React, JavaScript, Tailwind CSS, Supabase (PostgreSQL), Cloudinary, React Query

WithU– Liver Health Monitoring Platform

- Built interactive dashboard for uploading medical reports and viewing AI-generated health insights
- Implemented automated follow-up reminders and comparative analysis of test results over time
- Led a team of developers and coordinated with AI/ML team for seamless backend integration

TrendShop – E-Commerce Platform

- Shopping cart, product filtering, search, wishlist, and user authentication
- applying i18n multiple languages (en/ar)
- Responsive design across all devices with focus on performance and accessibility

DevEvents Next.js 16

- Built dynamic homepage listing upcoming events with real-time API integration
- Implemented CRUD functionality for events using Next.js API routes
- Developed dynamic event pages with detailed info and related event suggestions
- Integrated image upload with Cloudinary and analytics tracking with PostHog
- Focused on responsive design, clean code, and performance optimization

WorldWise App

- Built search and filter functionality for country data fetched from RESTAPIS
- Designed responsive UI with interactive cards and detailed country information
- Ensured clean code structure and smooth user experience

React Quiz App

- Developed dynamic quiz functionality with question randomization and scoring system
- Implemented responsive design and user- friendly navigation
- Managed application state and user progress using React Hooks and Context API

Popcorn Movie App

- Built dynamic search functionality and movie detail pages with real-time API integration
- Implemented responsive UI with smooth navigation and state management via Context API
- Focused on clean, maintainable code and engaging user experience

SKILLS

css, github, html, js, nextjs 16, react, tailwindcss

Soft Skills: Communication, Problem Solving, Team Leadership, Time Management

Technical Skills: Clean Code, CSS3, Figma (Basics), Git & GitHub, HTML5, JavaScript (ES6+), Next.js 16, Performance Optimization, React.js, Responsive Design, REST APIs, Tailwind CSS, TypeScript, UI/UX Principles, Vercel
